

IN CONJUNCTION WITH

PRESENTS:

EATON CATER Products Maintenance Training

This training outline is designed to provide ground fueling maintenance instructors and other personnel with a short course on the inspection, maintenance, repair, and testing of Carter aviation fueling equipment. This training will include associated valves and couplings used in various refueling vehicles and refueling systems. This instructional course will consist of hands-on training and indoctrination provided by Eaton/Carter® Ground Fueling.

TRAINER: Jon Hatcher (Eaton Cater Ground Fuelling Product Sales Manager)

LOCATION

Liquip Aviation Services
7 Trevi Crescent
Tullamarine, Victoria
